Study in BIT

About BIT

Beijing Institute of Technology (BIT) is one of the most prestigious and influential engineering universities in China. In QS World University Rankings 2023, BIT is ranked the 355th in the world and the Top 10 in science and engineering in China. In Academic Ranking of World Universities (ARWU) 2022, BIT is ranked 151-200 in the world. It has been one of the key universities in China since the founding of New China and the first batch of universities that has entered the national “211 Project”, “985 Project” and the “Top A World-Class University”.

BIT has a traditional focus on science and technology besides developing into other areas such as management and humanities. By adopting an international education strategy, “BIT International Community” is embracing an increasing number of international students and is gaining a wider influence in the world. BIT is now regarded as one of the best destinations for international students to study in China. Currently, it is home to more than 2,700 international students from 149 different countries. Welcome to join Beijing Institute of Technology!
